“Illegal dumping is a major problem that raises significant concerns with regard to safety, property values and quality of life in our communities. In addition, it is a major economic burden on local government, which is typically responsible for cleaning up dump sites,” said Gov. Beshear. “However, significant progress has been made in addressing the illegal dump issue, due in large part to a statewide cleanup and an education campaign by local, state and federal agencies.” 11/5/10

Litter and Open Dumping, when untreated, are like a disease on any community. Boyle County Fiscal Court is committed to the health, safety, and economic development of Boyle County for its residents, business and industry through the continued support of Solid Waste Management techniques that work for their elimination. Education, clean-up, and enforcement are tools used and maintained in our Solid Waste Management Plan so future generations will continue to enjoy this beautiful community we live and work in today. - Judge Executive Harold McKinney

KRS 224.01-010 (Kentucky Regulatory Statute) "**Open dump**" is defined as any facility or site for the disposal of solid waste which does not have a valid permit issued by the cabinet or does not meet the environmental performance standards established under regulations promulgated by the cabinet (Kentucky Energy and Environmental Cabinet).
